LHA MARKET STATE™ SHARES
NOTES TO FINANCIAL STATEMENTS
June 30, 2024 (Unaudited)

NOTE 1 – ORGANIZATION

LHA Market State™ Tactical Q ETF is a non-diversified series and LHA Market State™ Alpha Seeker ETF, LHA Market State™ Tactical Beta ETF and LHA Risk-Managed Income ETF are diversified series (individually each a “Fund” or collectively the “Funds”) of ETF Series Solutions (“ESS” or the “Trust”), an open-end management investment company consisting of multiple investment series, organized as a Delaware statutory trust on February 9, 2012. The Trust is registered with the Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company and the offering of the Funds’ shares is registered under the Securities Act of 1933, as amended (the “Securities Act”). LHA Market State™ Alpha Seeker ETF is an actively-managed exchange-traded fund (“ETF”) that seeks to provide positive returns across multiple market cycles that are generally not correlated to the U.S. equity or fixed income markets by investing long or short in instruments linked directly or indirectly to the performance and/or volatility of the S&P 500® Index based on statistical analysis that seeks to estimate the direction of the U.S. equity market. LHA Market State™ Tactical Beta is an actively-managed ETF and seeks long-term out-performance relative to the large-capitalization U.S. equity market by investing long or short in instruments linked directly or indirectly to the performance and/or volatility of the S&P 500® Index based on statistical analysis that seeks to estimate the direction of the S&P 500® Index. LHA Market State™ Tactical Q ETF is an actively-managed ETF that seeks long-term out-performance relative to the large-capitalization U.S. growth equity market by investing in equity instruments linked directly or indirectly to the performance of U.S.-listed, large capitalization, growth-oriented companies. LHA Risk-Managed Income ETF is an actively-managed ETF that seeks current income and capital preservation.

<u>Fund</u>	<u>Date of Commencement</u>
LHA Market State™ Alpha Seeker ETF	May 13, 2020
LHA Market State™ Tactical Beta ETF	September 29, 2020
LHA Market State™ Tactical Q ETF	March 14, 2022
LHA Risk-Managed Income ETF	June 8, 2023

The end of the reporting period for the Funds is June 30, 2024, and the period covered by these Notes to Financial Statements is the six-month period from January 1, 2024 through June 30, 2024 (the “current fiscal period”).

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The Funds are investment companies and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies consistently followed by the Funds. These policies are in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

- A. *Security Valuation.* All equity securities, including domestic and foreign common stocks, preferred stocks, and exchange-traded funds that are traded on a national securities exchange, except those listed on the Nasdaq Global Market™, Nasdaq Global Select Market™, and the Nasdaq Capital Market Exchange™ (collectively, “Nasdaq”) are valued at the last reported sale price on the exchange on which the security is principally traded. Securities traded on Nasdaq will be valued at the Nasdaq Official Closing Price (“NOCP”). If, on a particular day, an exchange-traded or Nasdaq security does not trade, then the mean between the most recent quoted bid and asked prices will be used. All equity securities that are not traded on a listed exchange are valued at the last sale price in the over-the-counter market. If a non-exchange traded security does not trade on a particular day, then the mean between the last quoted closing bid and asked price will be used. Prices denominated in foreign currencies are converted to U.S. dollar equivalents at the current exchange rate, which approximates fair value.

Futures contracts will be valued at the settlement price from the exchange on which they are traded.

Exchange traded options are valued at the composite mean price, which calculates the mean of the highest bid price and lowest asked price across the exchanges where the option is principally traded. On the last trading day prior to expiration, expiring options will be priced at intrinsic value.

LHA MARKET STATE™ SHARES
NOTES TO FINANCIAL STATEMENTS
June 30, 2024 (Unaudited) (Continued)

Investments in mutual funds, including money market funds, are valued at their net asset value (“NAV”) per share.

Debt securities, including short-term debt instruments having a maturity of less than 60 days, are valued in accordance with prices provided by a pricing service. Pricing services may use various valuation methodologies such as the mean between the bid and asked prices, matrix pricing and other analytical pricing models as well as market transactions and dealer quotations.

Securities for which quotations are not readily available are valued at their respective fair values in accordance with pricing procedures adopted by the Funds’ Board of Trustees (the “Board”). When a security is “fair valued,” consideration is given to the facts and circumstances relevant to the particular situation, including a review of various factors set forth in the pricing procedures adopted by the Board. The use of fair value pricing by the Funds may cause the NAV of their shares to differ significantly from NAV that would be calculated without regard to such considerations.

As described above, the Funds utilize various methods to measure the fair value of their investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuations methods. The three levels of inputs are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Funds’ own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The following is a summary of the inputs used to value the Funds’ investments as of the end of the current fiscal period:

- B. *Federal Income Taxes.* The Funds' policy is to comply with the provisions of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and to distribute substantially all of their net investment income and net capital gains to shareholders. Therefore, no federal income tax provision is required. The Funds plan to file U.S. Federal and various state and local tax returns.

The Funds recognize the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained. Management has analyzed the Funds' uncertain tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions. Management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will

LHA MARKET STATE™ SHARES
NOTES TO FINANCIAL STATEMENTS
June 30, 2024 (Unaudited) (Continued)

change materially in the next 12 months. Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits on uncertain positions as income tax expenses in the Statements of Operations. During the current fiscal period, the Funds did not incur any interest or penalties.

- C. *Security Transactions and Investment Income.* Investment securities transactions are accounted for on the trade date. Gains and losses realized from sales of securities are determined on a specific identification basis. Dividend income is recorded on the ex-dividend date. Non-cash dividends included in dividend income or separately disclosed, if any, are recorded at fair value of the security received. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted and amortized using the effective yield method.
- D. *Distributions to Shareholders.* Distributions to shareholders from net investment income and net realized gains on securities are declared and paid at least on an annual basis. Distributions are recorded on the ex-dividend date.
- E. *Use of Estimates.* The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the current fiscal period. Actual results could differ from those estimates.
- F. *Share Valuation.* The NAV per share of each Fund is calculated by dividing the sum of the value of the securities held by the Funds, plus cash and other assets, minus all liabilities (including estimated accrued expenses) by the total number of shares outstanding of each Fund, rounded to the nearest cent. The Funds' shares will not be priced on the days on which the New York Stock Exchange ("NYSE") is closed for trading. The offering and redemption price per share of each Fund is equal to each Fund's NAV per share.
- G. *Reclassification of Capital Accounts.* U.S. GAAP requires that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or NAV per share. These differences are primarily due to differing book and tax treatments for in-kind transactions. For the fiscal year ended December 31, 2023, the following table shows the reclassifications made:

	Distributable Earnings (Accumulated Losses)	Paid-In Capital
LHA Market State™ Alpha Seeker ETF	\$ (7,856)	\$ 7,856
LHA Market State™ Tactical Beta ETF	772,101	(772,101)
LHA Market State™ Tactical Q ETF	—	—
LHA Risk-Managed Income ETF	—	—

- H. *Guarantees and Indemnifications.* In the normal course of business, the Funds enter into contracts with service providers that contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.
- I. *Subsequent Events.* In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. There were no events or transactions that occurred during the period subsequent to the end of the current fiscal period that materially impacted the amounts or disclosures in the Funds' financial statements.

NOTE 3 – ADDITIONAL DISCLOSURES ABOUT DERIVATIVE INSTRUMENTS

Futures Contracts. LHA Market State™ Alpha Seeker ETF, LHA Market State™ Tactical Beta ETF and LHA Market State™ Tactical Q ETF may invest in futures contracts to hedge or manage risks associated with the Fund's investments in securities or to gain exposure to certain asset classes or markets. Each Fund may purchase or sell futures contracts only if the Fund's liabilities for the futures position are "covered" by an offsetting position in a futures contract or by the Fund segregating liquid assets equal to the Fund's liabilities on the futures contract. Upon entering into a financial futures contract, a Fund is required to pledge to the broker an amount of cash, U.S. government securities or other assets, equal to a certain percentage of the contract amount (initial margin deposit). Subsequent payments, known as "variation margin," are made or received by the Funds on an as needed basis. The Funds record an unrealized gain or loss by marking each futures contract to market. A realized gain or loss is recorded when the contract is closed. Should market conditions move unexpectedly, the Funds may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts, interest rates and the underlying assets. Futures contracts may have off-balance sheet risk. Off-balance sheet risk exists when the maximum potential loss on a particular financial instrument is greater than the value of such financial instrument, as reflected in the Schedules of Open Futures Contracts.

Positions in futures contracts may be closed out only on an exchange that provides a secondary market for such futures. However, there can be no assurance that a liquid secondary market will exist for any particular futures contract at any specific time. Thus, it may not be possible to close a futures position. In the event of adverse price movements, the Funds may be required to make cash payments to maintain the required margin. In such situations, if a Fund had insufficient cash, it might have to sell portfolio securities to meet margin requirements at a time when it would be disadvantageous to do so. In addition, the Fund might be required to make delivery of the underlying instruments of futures contracts it holds. The inability to close positions in futures could also have an adverse impact on the Funds' ability to hedge or manage risks effectively. Cash collateral held by the Funds is presented on the Statements of Assets and Liabilities under segregated cash at broker for futures and options, if any.

Options Contracts. LHA Market State™ Alpha Seeker ETF, LHA Market State™ Tactical Beta ETF and LHA Market State™ Tactical Q ETF may also purchase put or call options (or options spreads) on the VIX Index, the S&P 500, Nasdaq 100 or in ETNs or ETFs that seek exposure to short-term VIX Index futures contracts.

Purchasing a call option gives the buyer the right to purchase shares of the reference asset at a specified price ("strike price") until a specified date ("expiration date") (American-style options) or at the expiration date (European-style options). The buyer of the call option pays an amount (premium) for buying the option. In the event the reference asset appreciates above the strike price, the buyer can exercise the option and receive the reference asset (for American-style options) or receive the difference between the value of the reference asset and the strike price (for European-style options) (which gain is offset by the premium initially paid), and in the event the reference asset declines in value, the call option may end up worthless and the Funds' loss is limited to the amount of premium it paid. The Funds' investments in call options and put options on the S&P 500, Nasdaq 100 or the VIX Index are generally expected to be European-style options.

Purchasing a put option gives the buyer the right to sell shares of a reference asset at a strike price until the expiration date (American-style options) or at the expiration date (European-style options). The buyer of the put option pays an amount (premium) for buying the option. In the event the reference asset declines in value below the strike price and a Fund exercises its put option, the Fund will be entitled to deliver the reference asset (for American-style options) or receive the difference between the strike price and the value of the reference asset (for European-style options) (which gain is offset by the premium originally paid by the Fund), and in the event the reference asset closes above the strike price as of the expiration date, the put option may end up worthless and the Fund's loss is limited to the amount of premium it paid.

A call spread entails the purchase of a call option and the sale of a call option on the same reference asset with the same expiration date but a higher strike price. A put spread entails the purchase of a put option and the sale of a put option on the same reference asset with the same expiration date but a lower strike price. The premium received from the sale of the call or put options is generally expected to offset the cost to the Fund of the purchased options in exchange for limiting the maximum return from such options.

LHA MARKET STATE™ SHARES
NOTES TO FINANCIAL STATEMENTS
June 30, 2024 (Unaudited) (Continued)

LHA Market State™ Alpha Seeker ETF, LHA Market State™ Tactical Beta ETF and LHA Market State™ Tactical Q ETF may also write options. A written (sold) call option gives the seller the obligation to sell shares of the underlying asset at a specified price (“strike price”) at a specified date (“expiration date”). The writer (seller) of the call option receives an amount (premium) for writing (selling) the option. In the event the underlying asset appreciates above the strike price as of the expiration date, the writer (seller) of the call option will have to pay the difference between the value of the underlying asset and the strike price (which loss is offset by the premium initially received), and in the event the underlying asset declines in value, the call option may end up worthless and the writer (seller) of the call option retains the premium.

A written (sold) put option gives the seller the obligation to buy shares of the underlying asset at a specified price (“strike price”) at a specified date (“expiration date”). The writer (seller) of the put option receives an amount (premium) for writing (selling) the option. In the event the underlying asset depreciates below the strike price as of the expiration date, the writer (seller) of the put option pays the difference between the value of the underlying asset and the strike price (which loss is offset by the premium initially received), and in the event the underlying asset appreciates in value, the put option may end up worthless and the writer (seller) of the call option retains the premium.

When the Funds write an option, an amount equal to the premium received by the Funds is recorded as a liability and is subsequently adjusted to the current fair value of the options written. Premiums received from writing options that expire unexercised are treated by the Funds on the expiration date as realized gains from options written. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Funds have realized a gain or loss. The Funds, as a writer of an option, bear the market risk of an unfavorable change in the price of the security underlying the written option.

For financial statement purposes, cash held at or due to the broker for futures and options is included in the Statements of Assets and Liabilities as deposits at broker for futures and options or payable to broker for futures and options. Broker interest paid by the Funds, if any, is included as broker interest expense in the Statements of Operations. As collateral for written options, the Funds maintain segregated assets consisting of cash, cash equivalents, or liquid securities (e.g. Permissible Assets). Segregated cash, if any, is included as segregated cash at broker for futures and options in the Statements of Assets and Liabilities. The Advisor may earmark or instruct the Funds’ custodian to segregate Permissible Assets in an amount at least equal to the market value, calculated on a daily basis, of the written options. Alternatively, a written call option contract can be “covered” through (a) ownership of the underlying instruments or (b) ownership of an option on such instruments at an exercise price equal to or lower than the exercise price of the short option, and a written put option contract can be “covered” (a) through ownership of a put option with an exercise price at least equal to the Funds’ delivery or purchase obligation or (b) through selling short the underlying instrument at a price at least equal to the Funds’ purchase obligation.

The effect of derivative instruments on the Statements of Assets and Liabilities as of the end of the current fiscal period was as follows:

NOTE 4 – COMMITMENTS AND OTHER RELATED PARTY TRANSACTIONS

Little Harbor Advisors, LLC (“the Adviser”), serves as the investment adviser to the Funds. Pursuant to an Investment Advisory Agreement (“Advisory Agreement”) between the Trust, on behalf of the Funds, and the Adviser, the Adviser provides investment advice to the Funds and oversees the day-to-day operations of the Funds, subject to the direction and control of the Board and the officers of the Trust. Under the Advisory Agreement, the Adviser is also responsible for arranging, in consultation with each Fund’s respective sub-adviser, if any: transfer agency, custody, fund administration, and all other related services necessary for the Funds to operate. Grimes & Company, Inc serves as the sub-adviser for LHA Risk-Managed Income ETF.

LHA MARKET STATE™ SHARES
NOTES TO FINANCIAL STATEMENTS
June 30, 2024 (Unaudited) (Continued)

Under the Advisory Agreement, the Adviser has agreed to pay all expenses incurred by the Fund, except for: the fee paid to the Adviser pursuant to the Advisory Agreement, interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution (12b-1) fees and expenses. For the services it provides to the Funds, the Funds each pay the Adviser a unified management fee, which is calculated daily and paid monthly, at an annual rate of 1.10% of each Fund’s average daily net assets. The Adviser is responsible for paying the sub-adviser.

U.S. Bancorp Fund Services, LLC (“Fund Services” or “Administrator”), doing business as U.S. Bank Global Fund Services, acts as the Funds’ Administrator and, in that capacity, performs various administrative and accounting services for the Funds. The Administrator prepares various federal and state regulatory filings, reports and returns for the Funds, including regulatory compliance monitoring and financial reporting; prepares reports and materials to be supplied to the Board and monitors the activities of the Funds’ Custodian, transfer agent and fund accountant. Fund Services also serves as the transfer agent and fund accountant to the Funds. U.S. Bank N.A. (the “Custodian”), an affiliate of Fund Services, serves as the Funds’ Custodian.

All officers of the Trust are affiliated with the Administrator and Custodian.

NOTE 5 – PURCHASES AND SALES OF SECURITIES

During the current fiscal period, purchases and sales of securities by the Funds, excluding short-term securities and in-kind transactions, were as follows:

	<u>Purchases</u>	<u>Sales</u>
LHA Market State™ Alpha Seeker ETF	\$8,822,362	\$10,712,580
LHA Market State™ Tactical Beta ETF	—	—

LHA Market State™ Tactical Q ETF	91,890	—	—	—
LHA Risk-Managed Income ETF	1,169,117	14,717	N/A	N/A

NOTE 7 – SHARE TRANSACTIONS

Shares of the Funds are listed and traded on the Cboe BZX Exchange, Inc. (“Cboe”). Market prices for the shares may be different from their NAV. The Funds issue and redeem shares on a continuous basis at NAV generally in large blocks of shares, called “Creation Units.” Creation Units are issued and redeemed principally in-kind for securities included in a specified universe. Once created, shares generally trade in the secondary market at market prices that change throughout the day. Except when aggregated in Creation Units, shares are not redeemable securities of the Funds. Shares of the Funds may only be purchased or redeemed by certain financial institutions (“Authorized Participants”). An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem shares directly from the Fund. Rather, most retail investors may purchase shares in the secondary market with the assistance of a broker and are subject to customary brokerage commissions or fees.

The Funds currently offer one class of shares, which has no front-end sales load, no deferred sales charge, and no redemption fee. A fixed transaction fee is imposed for the transfer and other transaction costs associated with the creation or redemption of Creation Units. The standard fixed creation and redemption transaction fee for the Funds are \$300 payable to the Custodian. The fixed transaction fee may be waived on certain orders if the Funds’ Custodian has determined to waive some or all of the costs associated with the order, or another party, such as the Adviser, has agreed to pay such fee. In addition, a variable fee may be charged on all cash transactions or substitutes for Creation Units of up to a maximum of 2% as a percentage of the value of the Creation Units subject to the transaction. Variable fees received by the Funds, if any, are displayed in the Capital Transactions section of the Statements of Changes in Net Assets. The Funds may issue an unlimited number of shares of beneficial interest, with no par value. All shares of the Funds have equal rights and privileges.

NOTE 8 – PRINCIPAL RISKS

Investment Company Risk. The risks of investing in investment companies, such as the Underlying ETFs, typically reflect the risks of the types of instruments in which the investment companies invest. By investing in another investment company, the Funds become a shareholder of that investment company and bear their proportionate share of the fees and expenses of the other investment company. The Funds may be subject to statutory limits with respect to the amount they can invest in other ETFs, which may adversely affect the Funds’ ability to achieve their investment objective. Investments in ETFs are also subject to the following risks: (i) the market price of an ETF’s shares may trade above or below their NAV; (ii) an active trading market for an ETF’s shares may not develop or be maintained; and (iii) trading of an ETF’s shares may be halted for a number of reasons.

LHA MARKET STATE™ SHARES

APPROVAL OF ADVISORY AGREEMENT & BOARD CONSIDERATIONS (Unaudited)

Pursuant to Section 15(c) of the Investment Company Act of 1940 (the “1940 Act”), at a meeting held on April 10-11, 2024 (the “Meeting”), the Board of Trustees (the “Board”) of ETF Series Solutions (the “Trust”) approved the continuance of the Investment Advisory Agreement (the “Advisory Agreement”) between Little Harbor Advisors, LLC (the “Adviser”) and the Trust, on behalf of the LHA Market State Alpha Seeker ETF, LHA Market State Tactical Beta ETF, and LHA Market State Tactical Q ETF (each, a “Fund” and, collectively, the “Funds”).

Prior to the Meeting, the Board, including the Trustees who are not parties to the Advisory Agreement or “interested persons” of any party thereto, as defined in the 1940 Act (the “Independent Trustees”), reviewed written materials (the “Materials”), including information from the Adviser regarding, among other things: (i) the nature, extent, and quality of the services provided to the Funds by the Adviser; (ii) the historical performance of the Funds; (iii) the cost of the services provided and the profits realized by the Adviser or its affiliates from services rendered to each Fund; (iv) comparative performance, fee, and expense data for the Funds and other investment companies with similar investment objectives, including a report prepared by Barrington Partners, an independent third party, that compares each Fund’s investment performance, fees, and expenses to relevant market benchmarks and peer groups (the “Barrington Report”); (v) the extent to which any economies of scale realized by the Adviser in connection with its services to each Fund are shared with Fund shareholders; (vi) any other financial benefits to the Adviser and its affiliates resulting from services rendered to the Fund; and (vii) other factors the Board deemed to be relevant.

The Board also considered that the Adviser, along with other service providers of the Funds, had provided written and oral updates on the firm over the course of the year with respect to its role as investment adviser to the Funds, and the Board considered that information alongside the Materials in its consideration of whether the Advisory Agreement should be continued. Additionally, Adviser representatives provided an oral overview of each Fund’s strategy, the services provided to each Fund by the Adviser, and additional information about the Adviser’s personnel and business operations. The Board then discussed the Materials and the Adviser’s oral presentation, as well as any other relevant information received by the Board at the Meeting and at prior meetings, and deliberated, in light of this information, on the approval of the continuation of the Advisory Agreement.

Approval of the Continuation of the Advisory Agreement with the Adviser

Nature, Extent, and Quality of Services Provided. The Trustees considered the scope of services provided under the Advisory Agreement, noting that the Adviser had provided and would continue to provide investment management services to the Funds. In considering the nature, extent, and quality of the services provided by the Adviser, the Board considered the quality of the Adviser’s compliance program and past reports from the Trust’s Chief Compliance Officer (“CCO”) regarding the CCO’s review of the Adviser’s compliance program. The Board also considered its previous experience with the Adviser providing investment management services to the Funds. The Board noted that it had received a copy of the Adviser’s registration form and financial statements, as well as the Adviser’s response to a detailed series of questions that included, among other things, information about the Adviser’s decision-making process, the background and experience of the firm’s key personnel, and the firm’s compliance policies, marketing practices, and brokerage information.

The Board also considered other services provided by the Adviser to the Funds, including monitoring each Fund’s adherence to its investment restrictions and compliance with the Funds’ policies and procedures and applicable securities regulations, as well as monitoring the extent to which each Fund achieves its investment objective as an actively managed fund.

Historical Performance. The Trustees next considered each Fund’s performance. The Board observed that additional information regarding each Fund’s past investment performance, for periods ended December 31, 2023, had been included in the Materials, including the Barrington Report, which compared the performance results of each Fund with the returns of a group of ETFs selected by Barrington Partners as most comparable (each, a “Peer Group”) as well as with funds in the Fund’s Morningstar category (each, a “Category Peer Group”). Additionally, at the Board’s request, the Adviser identified the funds the Adviser considered to be each Fund’s most direct competitors (each, a “Selected Peer Group”) and provided the Selected Peer Group’s performance results. The funds included by the Adviser in each Selected Peer Group include funds that, based on a combination of quantitative and qualitative considerations made by the Adviser, have similar investment objectives and/or principal investment strategies as the relevant Fund.

LHA Market State Alpha Seeker ETF: The Board noted that the Fund significantly underperformed its broad-based benchmark, the S&P 500[®] Index, for the one-year, three-year, and since inception periods. The S&P 500 provides an

indication of the performance of the large-cap U.S. equity market. In comparing the Fund's performance to that of the benchmark, the Board noted that the Fund, unlike its benchmark, seeks to provide positive returns across multiple market cycles that are generally not correlated to the U.S. equity or fixed income markets by investing long or short in instruments linked directly or indirectly to the S&P 500 and/or the Cboe Volatility Index[®] (the "VIX Index"), including options and futures contracts.

The Board then noted that, for the one- and three-year periods ended December 31, 2023, the Fund underperformed the median return of its Peer Group and its Category Peer Group, which is comprised of funds in the Morningstar U.S. Fund Long-Short Equity category. The Board took into consideration that the Fund employs a tactical investment strategy; whereas, the ETFs that comprise the Peer Group employ long/short strategies, noting that the Peer Group funds, like the Fund, may change their investment exposures frequently and significantly. The Board also noted that the Fund generally performed within the range of funds in the Selected Peer Group for the one- and three-year periods ended December 31, 2023. The Board considered that the funds included in the Selected Peer Group were described by the Adviser as actively managed ETFs that apply tactical, alternative, long/short, and/or hedging strategies.

LHA Market State Tactical Beta ETF: The Board noted that the Fund underperformed its broad-based benchmark, the S&P 500, for each of the one-year, three-year, and since inception periods. The S&P 500 provides an indication of the performance of the large-cap U.S. equity market. In comparing the Fund's performance to that of the benchmark, the Board noted that the Fund, unlike its benchmark, seeks long-term out-performance relative to the large-cap U.S. equity market by investing in instruments linked directly or indirectly to the performance and/or volatility of the S&P 500, including ETFs with long exposure to the S&P 500, U.S. Treasury securities, or instruments linked to the VIX Index, as well as options and futures contracts on the S&P 500 and the VIX Index.

The Board then noted that, for the one- and three-year periods ended December 31, 2023, the Fund underperformed the median return of its Peer Group and its Category Peer Group, which is comprised of funds in the Morningstar U.S. Fund Options Trading category. The Board took into consideration that the Fund employs a tactical investment strategy; whereas, the ETFs that comprise the Peer Group employ options trading strategies, including managed risk and buffer protect strategies. The Board also noted that the Fund generally performed within the range of funds in the Selected Peer Group for the one- and three-year periods ended December 31, 2023. The Board considered that nearly all of the funds included in the Selected Peer Group were actively managed ETFs described by the Adviser as applying alternative, enhanced dividend, risk-managed income, long/short, and/or hedging strategies.

LHA Market State Tactical Q ETF: The Board noted that the Fund underperformed its broad-based benchmark, the Nasdaq-100[®] Index, for the one-year and since inception period. The Nasdaq-100 provides an indication of the performance of the 100 largest, most actively traded, non-financial equity securities listed on the Nasdaq stock exchange. In comparing the Fund's performance to that of the benchmark, the Board noted that the Fund, unlike its benchmark, seeks long-term out-performance relative to the large-cap U.S. growth equity market by investing in equity instruments linked directly or indirectly to the performance of U.S.-listed, large-cap, growth-oriented companies, including ETFs that provide long or short exposure to growth equities, U.S. Treasury securities, or instruments linked to the VIX Index, as well as options and futures contracts on equities or the VIX Index.

The Board then noted that, for the one-year period ended December 31, 2023, the Fund significantly outperformed the median return of its Peer Group and its Category Peer Group, which is comprised of funds in the Morningstar U.S. Fund Options Trading category. The Board took into consideration that the Fund employs a tactical investment strategy; whereas, the ETFs that comprise the Peer Group employ options trading strategies, including managed risk and buffer protect strategies. The Board also noted that the Fund outperformed all funds in the Selected Peer Group for the one-year period ended December 31, 2023. The Board considered that nearly all of the funds included in the Selected Peer Group were actively managed ETFs described by the Adviser as applying alternative, enhanced dividend, buffer protect, risk-managed income, long/short, and/or options strategies. The Board also noted that the Fund commenced operations on March 14, 2022, less than two years prior to December 31, 2023, which was a relatively short period of time over which to evaluate the Fund's performance and draw meaningful conclusions about its management.

Cost of Services Provided and Economies of Scale. The Board then reviewed each Fund's fees and expenses. The Board took into consideration that the Adviser had charged, and would continue to charge, a "unified fee," meaning each Fund pays no expenses other than the advisory fee and, if applicable, certain other costs such as interest, brokerage,

LHA MARKET STATE™ SHARES

APPROVAL OF ADVISORY AGREEMENT & BOARD CONSIDERATIONS (Unaudited) (Continued)

acquired fund fees and expenses, extraordinary expenses, and, to the extent it is implemented, fees pursuant to a Distribution and/or Shareholder Servicing (12b-1) Plan. The Board noted that the Adviser had been and would continue to be responsible for compensating the Trust's other service providers and paying the Funds' other expenses out of its own fee and resources. The Board then compared the net expense ratios of each Fund with those of the funds in its Peer Group and Category Peer Group, as shown in the Barrington Report, and its Selected Peer Group.

LHA Market State Alpha Seeker ETF: The Board noted that the Fund's net expense ratio was slightly higher than the median net expense ratio of the funds in its Peer Group and lower than the median net expense ratio of the funds in its Category Peer Group.

LHA Market State Tactical Beta ETF: The Board noted that the Fund's net expense ratio was the highest net expense ratio among the funds in its Peer Group and higher than the median net expense ratio of the funds in its Category Peer Group.

LHA Market State Tactical Q ETF: The Board noted that the Fund's net expense ratio was the highest net expense ratio among the funds in its Peer Group and higher than the median net expense ratio of the funds in its Category Peer Group.

In addition, the Board noted that each Fund's net expense ratio was within the range of net expense ratios of funds in its Selected Peer Group.

The Board then considered the Adviser's financial resources and information regarding the Adviser's ability to support its management of the Funds and obligations under the unified fee arrangement, noting that the Adviser had provided its financial statements for the Board's review. The Board also evaluated the compensation and benefits received by the Adviser from its relationship with the Funds, taking into account an analysis of the Adviser's profitability with respect to each Fund at various actual and projected Fund asset levels.

The Board also considered each Fund's expenses as well as the structure of its advisory fee with respect to potential economies of scale. The Board noted that the advisory fee structure did not contain any breakpoint reductions as Fund assets grow but considered that each Fund's fee structure is a unified fee. The Board concluded that the current fee structure for each Fund reflects a sharing of economies of scale between the Adviser and the Fund at current asset levels. The Board also noted its intention to monitor fees as the Funds grow in size and assess whether advisory fee breakpoints may be warranted in the future.

Conclusion. No single factor was determinative of the Board's decision to approve the continuation of the Advisory Agreement; rather, the Board based its determination on the total mix of information available to it. Based on a consideration of all the factors in their totality, the Board, including the Independent Trustees, unanimously determined that the Advisory Agreement, including the compensation payable under the agreement, was fair and reasonable to each Fund. The Board, including the Independent Trustees, unanimously determined that the approval of the continuation of the Advisory Agreement was in the best interests of each Fund and its shareholders.
